

EXPORT CONTROL QUESTIONNAIRE

An **Export Control Questionnaire** was created by the University's Office of General Counsel (OGC) and added to the DS-2019 application. The Export Control Questionnaire must be submitted with all DS-2019 applications. Receipt of the questionnaire and clearance of the Exchange Visitor is a condition of issuing the DS-2019.

All **Exchange Visitors** are subject to Export Control, including Research Scholars, Short Term Scholars, Professors, Specialists, Students, and Student Interns. The Questionnaire must be completed and signed by the **Primary Investigator (PI), supervisor**, or other department representative with intimate knowledge of the Exchange Visitor's research.

To provide some context, the University of Utah must comply with United States Export Control regulations, and the Questionnaire is designed to facilitate compliance with export control regulations. These regulations concern transfer or access to export controlled equipment and technologies by foreign nationals. When the University sponsors a J-1 Exchange Visitor (EV), we must (i) review the **Export Administration Regulations** (EAR) administered by the U.S. Department of Commerce and the **International Traffic in Arms Regulations** (ITAR) administered by the U.S. Department of State, and (ii) determine whether or not a license is required to allow the foreign national Exchange Visitor access to export controlled items or technology (laboratory equipment/research instruments, materials, software or technology/technical data).

As a general principle, the University of Utah adheres to principles of openness in research based on its mission of education, research and public service. Consistent with these principles, the University will not generally enter into a contract nor accept a grant to carry out research if the grant or contract restricts the freedom of the University to publish results or limits the participation of researchers on the basis of citizenship. However, there are exceptions to this general position that trigger export control restrictions, so each EV must be evaluated.

If research is subject to Export Control regulations, and an exemption is not available, the government will require the University to obtain a license before allowing foreign nationals to participate in the controlled research. Licenses are not easily obtained and require careful preparation and a significant amount of lead-time. Noncompliance with export control regulations subjects both individuals and the University to penalties, which may include monetary and criminal punishment.

Information about Export Controls can be found on the Bureau of Industry and Security website and on the EXBS fact sheet and the University's commitment to compliance can be found on the Office of Sponsored Project's website.

Thank you for your cooperation and please let us know if there are any questions.

Best,

J-1 Scholar Team

J-1 VISA/EXPORT CONTROL QUESTIONNAIRE

The questionnaire must be completed and signed by the **Supervisor/Principal Investigator** or other appropriate University authority with direct oversight of the foreign national exchange visitor's work. This is required for all Exchange Visitors (Research Scholars, Short Term Scholars, Professors, Students, and Student Interns)

SECTION I

Name of Exchange Visitor:

Title:

Countries of Citizenship (include dates):

Country of Birth:

Name and Title of Supervisor or PI:

- Is the J-1 exchange visitor (EV) (i) classified as a J-1 Student "Non-degree" or "Bachelor", <u>and</u> (ii) <u>not</u> currently applying for academic training, <u>and</u> (iii) <u>not</u> a Student Intern? (If "Yes," proceed to Section VI). Student "non-degree" or "Bachelor" are students in full time study at the University.
- 2. Will the EV be working in the **core sciences** (medical and non-medical), e.g., biomedical sciences, computer sciences, space or space launch sciences, engineering (chemical, electrical, mechanical, semiconductor, nuclear), material sciences, atmospheric sciences/astronomy, geophysics, physics, chemistry, medicine, nanotechnology, marine science, artificial intelligence, robotics, etc. and including IT services in these departments/fields.

Check one:

No, the EV's program will <u>not</u> involve, expose or potentially expose the applicant to any core scientific discipline, including but not limited to the ones listed above. **Please sign and date this form in Section VI.**

Yes, the EV's program <u>will</u> involve, expose or potentially expose the beneficiary to a core scientific discipline (including but not limited to one or more of those listed above). **Proceed to Section II**.

SECTION II

- 3. Will the EV engage in research? (If "No," proceed to Section III)
- **4.** Is the research to be performed or funded by, or affiliated with, in whole or in part, another university, nonacademic research institution, company, or the federal or state government?

If yes, please provide:

If the entity is located abroad, please identify name and location

If the EV is collaborating with an institution abroad as part of the research, in what capacity?

Yes

No

No

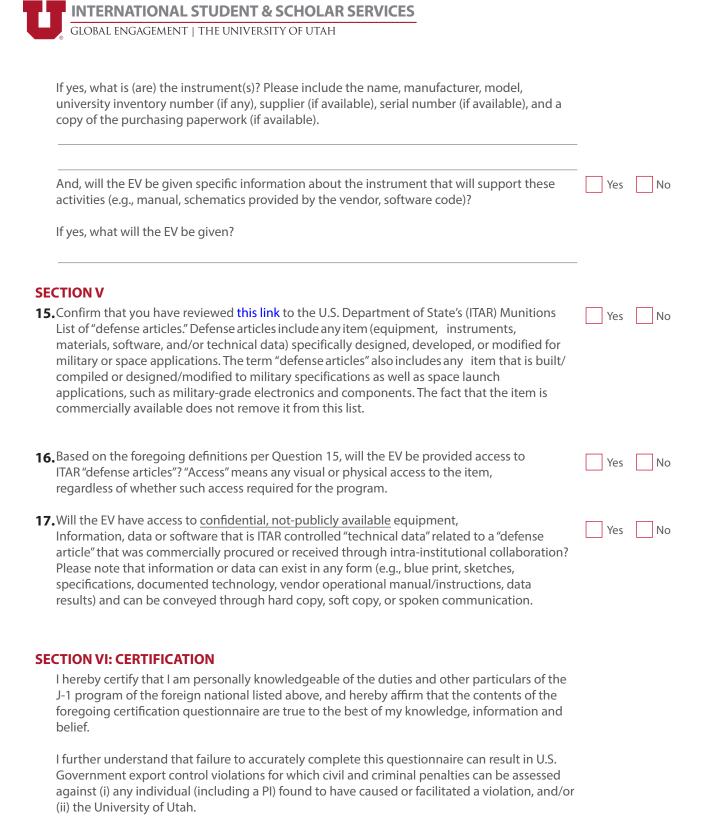

No

Yes

Yes

INTERNATIONAL STUDENT & SCHOLAR SERVICES GLOBAL ENGAGEMENT | THE UNIVERSITY OF UTAH

	Provide us with a copy of any contract/award governing the research collaboration or funding			
	If there a Project ID#, please provide it:	see above	e above	
	Project Title			
	Name of the PI			
SECTION II				
5.	Will the research results be taught, published or otherwise shared with the interested public	? Yes	No	
6.	Are there <u>any</u> restrictions on publication of your research results? (Examples include, but are not limited to an absolute publication restriction or time delay or opportunity for review an or comment by third party or sponsor.) (If "Yes", please provide a copy of any agreement).		No	
7.	Are there any citizenship restrictions on who can access the technology or technical data being used in your research or research results? (If "Yes", please provide a copy of any agreement).	Yes	No	
8.	Is any aspect of your research subject to any Non-Disclosure Agreement (NDA) or other confidentiality agreement that permits access to confidential, not publicly available information, data or software from a sponsor/third-party?	Yes	No	
9.	If you answered "yes" to question 8, will the EV have access to <u>confidential</u> , <u>not-publicly</u> <u>available</u> information, data or software? (If "Yes", please provide a copy of any NDA or other confidentiality agreement).	Yes	No	
10	Where the research results in software, will the software be commercialized and licensed?	Yes	No	
11	•Does the EV have citizenship from any of the following countries: Cuba, Iran, North Korea, Syria or Sudan?	Yes	No	
12	•Will the EV have access to proprietary technology for the development of cryptography or proprietary source code containing cryptographic functionality (whether on not actually required for the work assignment and whether through hard or soft copy)?	Yes Yes	No	
SECTION IV				
13	Will the EV have access to technical data or information that has been stamped or otherwise designated by the sponsor/third party as "export controlled"? This includes U.S. governmen or sponsor/collaborator furnished technical data with dissemination controls or other restrictive markings, as well as ITAR-controlled software.		No	
14	•Will the EV have access to one or more laboratory instruments where the all 6 of the following activities occur (all 6 relative to one particular instrument): operation, installation, maintenance, repair, overhaul and refurbishing?	Yes	No	

Supervisor/PI (printed name) Signature
